HOLIDAY EDITION

YEAR LONG BUNDLE

YOU KNOW PHONICS MATTERS...

BUT STRUGGLE TO PROVIDE CONSISTENT, SCIENCE OF READING–ALIGNED PRACTICE ALL YEAR LONG...UNTIL NOW

- Provides explicit, phonics-first activities aligned to Science of Reading principles (phonemic awareness, phonics, decoding, encoding)
- Uses predictable center formats so students focus on the skill—not learning new directions every month
- Includes 10 holiday & seasonal-themed units to keep engagement high without sacrificing instructional quality
- Supports independent practice that actually reinforces what you taught in small group
- Reduces teacher planning time with easy-prep, classroom-tested activities

Saves hours of planning across the entire school year.

Keeps phonics instruction consistent, even during busy holiday weeks.

Helps students build automaticity through repeated, meaningful practice.

Makes literacy centers manageable and purposeful.

Builds student confidence with routines that feel familiar and safe.

How does this bundle help YOU in YOUR classroom?

Skills Covered in This Unit

phonemic awareness (isolating, identifying, and manipulating sounds).

beginning, medial, and ending sounds.

phoneme-grapheme correspondence

Happy Teachers Said...

“

I love that these centers are actually aligned to how kids learn to read. My students know the routines, I know the skills are solid, and I don't feel guilty using them during busy holiday weeks. Huge win.

”

“

This bundle saved me so much planning time. I can drop these centers into my rotations without re-teaching directions every month. My kids stay engaged, and I can actually focus on small groups.

”

“

Finally—holiday centers that aren't just cute. These reinforce exactly what I'm teaching in phonics, and my students are more confident because the structure stays the same.”

”
